

Awkward Monkey AI

\$AMA Bot

Introducing the unique features and benefits of our AI bot

**We are a dedicated team of 5 individuals
working collaboratively on the innovative
Awkward Monkey AI project.**

The Problem

Many crypto communities struggle with engagement, often resorting to paying moderators to maintain activity. This leads to inefficiencies and increased costs.

The Solution

Awkward Monkey AI Bot addresses this challenge by providing a suite of engagement features. These include an AI Buybot for personalized buy messages, a Roast/Toast function for witty community messages, and voice functionality. Additionally, our bot assists with chat moderation, anti-flooding, greetings, filters, and many more options.

Market Opportunity

In a saturated crypto market, our bot stands out by actively engaging with the community. This makes it an attractive platform for projects to advertise through, enhancing user retention.

Competitive Analysis

While our main competitor focuses on buybots and receives 300,000 daily views, our bot's interactive community engagement gives us a competitive edge. This positions us as a more appealing platform for project advertisements.

Our Product

Buybot

Personalized buy messages tailored to each user based on factors like transaction amount and holder status. These messages will have a gif based on the amount purchased. Or you can set a custom gif with /setgif "URL"

Roast/Toast Feature

Witty and personalized messages for community members, creating a lively and entertaining atmosphere. Messages are not entirely random but intelligently tailored based on past interactions, fostering a sense of community.

Voice Functionality

All features are available in voice format, providing a more dynamic and immersive user experience. Appeals to a broader audience, including those who prefer auditory interaction over traditional text-based communication.

Community Assistance

Chat moderation to maintain a positive and constructive environment.
Anti-flooding measures to prevent spam and ensure a smooth communication flow.
Greetings, filters, and reminders for a well-managed and organized community space.

AskAMA and AskWeb

Retrieve information on a wide range of web-related topics.
Ask anything from general knowledge to specific web searches.

Gecko and Crypto

Get information of any project on Gecko.
Ask what the top AI token you should know about!

How To Use?

1 Add AMA Bot to Your Group

Ensure Ama Bot is added to your Telegram group. Grant administrative privileges to Ama Bot.

2 Set Personality (Optional)

Personalize the Ama Bot by setting a personality. Use the command /set and choose a predefined personality ID. For a custom personality, contact us hello@awkwardmonkeyai.com

3 Activate Buybot

Begin by adding your token pair using the command /addpair "token address". Activate the Buybot functionality with /buynotify on.

CONFIG(admin):

`/set` - Set up a bid for the chat (group or private)

`/setgif` - Set a custom gif for your community

AI FEATURES:

`/askweb` - AI assistant for any topic

`/crypto` - AI crypto-research assistant

`/gecko` - Real-time coin metrics

`/askamp` - AI assistant for this Project

`/voice` - Your question will be answered with a voice!

`/roast` - Roast anyone in the group

`/toast` - Say something nice about another user

`/autotoast` - Enable/disable auto-toast

`/summarize` - Summarize the latest messages in the group

`/autosum` - Enable/disable auto-summarization

MODERATION (admin):

`/mute` - Mute a member in the chat

`/unmute` - Unmute a previously muted member

`/ban` - Ban a member from the chat

`/unban` - Revoke the ban from a member

`/promote` - Promote a member to admin

`/demote` - Demote an admin to member

`/warn` - Warn a user

`/warns` - Get the warnings of a user

`/removewarn` - Remove a warn from a user

`/warnlimit` - Set the amount of warnings that users can receive

`/warnmode` - Set the warning mode

ANTI-FLOOD (admin):

`/setflood` - Set the number of messages to trigger anti-flood function

`/floodmode` - Action to take place when a user is flooding

GREETINGS (admin):

`/welcome` - Enable/disable the welcome message

`/addwelcome` - Set a custom welcome message

`/prevwelcome` - Preview the current welcome message

`/resetwelcome` - Set the welcome message to default

FILTERS (admin):

`/addfilter` - Add a filter-keyword-response

`/getfilters` - Get a list of all filters applied

`/clearfilter` - Remove a specific or all filters applied

REMINDERS (private chats):

`/reminder` - Create a new reminder

`/dreminder` - Delete a reminder

`/sreminders` - Get a list of saved reminders

List of Commands

Businesses Model

Our bot is free to use with ads, providing accessibility to a wide user base. Users seeking an ad-free experience can contact us for a whitelisted version.

We generate revenue through advertisements in the free version of our bot and offer a paid, ad-free version for users who contact us. This dual model ensures sustainability and flexibility.

Development Roadmap

Our future plans include enhancing and expanding our bot's features. This includes developing an AI Buybot for other communities and a Safe Portal bot to replace multiple bots, making our platform more appealing for diverse groups.

Partnership

We are thrilled to announce our strategic partnership with PAAL AI, a cutting-edge development collaborator that has played a pivotal role in shaping the success of Awkward Monkey AI Bot.

Key Highlights

Innovative Development:

PAAL AI brings a wealth of expertise in AI and bot development.

Collaborative efforts have resulted in the creation of a sophisticated and user-friendly bot.

Continuous Improvement:

Our partnership extends beyond the initial development phase.

PAAL AI remains actively involved, contributing to ongoing enhancements and updates.

Technical Excellence:

PAAL AI's commitment to technical excellence aligns seamlessly with our vision for Awkward Monkey AI Bot.

The partnership ensures a robust and reliable platform for our users.

Strategic Alignment:

PAAL AI shares our commitment to community engagement and technological innovation.

This alignment enhances our ability to deliver a bot that stands out in the competitive crypto landscape.

Connect With Us

Thank you for your interest!

For any questions, collaborations, or additional details, feel free to connect with us directly. Drop us an email at hello@awkwardmonkeyai.com, and don't forget to delve into the intricate nuances of our project by exploring the updated whitepaper available on our website, Awkwardmonkeyai.com. Your curiosity fuels our innovation, and we look forward to the possibilities that lie ahead.
